

## Hear it from our Customers!

**Netguides have been providing travel solutions for over 10 years and our first ever customer is still with us! Your business success is important to ours we look forward to establishing a long term mutually beneficial relationship with you.**

This is what a couple of our Gema system customers have to say:

**Little Kickers** provide football training courses for two to five year old children. The business has been operating since 2005 and has grown from two to over fifty franchise locations.

*"Little Kickers came to market in 2005 with a product first mover advantage.*

***The Gema business system that Netguides developed for Little Kickers has been the critical factor in the exponential growth and speed to market.***

*The system enabled us to maintain our first mover advantage in the UK and to respond to overseas opportunities at a fast pace.*

*Our customers love the professional and consistent service the system allows us to provide and are quickly taking to the recent full end-to-end integration of online booking and online payment.*

***Netguides and Gema have provided quality, reliability and leading-edge technology at an affordable price and with excellent support levels."***

Sarah Field - Co-founder  
Little Kickers Limited

**Crewseekers** is the original yacht crew agency established since 1990. They provide a service that brings yacht owners and crew looking for experience or adventure together.

*"We are happy to relate our recent first time experience of "road testing" our new web site and Gema system which we are delighted to confirm passed with flying colours!*

*Like many family run businesses it is always difficult to make time for holidays. As founding directors of Crewseekers we had not had a 2 week break together for over 15 years.*

***The new back office admin systems worked fantastically well allowing us to approve and process details in minutes, while new members were able to join online and use our service immediately thanks to integrated banking and secure password access systems.***

***We are delighted to say our new system surpassed all our expectations and we are now planning our next trip away with great confidence. Well done all round guys!"***

Paul and Tina Stock – Directors  
Crewseekers
